BC-2800Vet

Auto Hematology Analyzer

- CBC+DIFF for Cat, Dog, Horse, Mouse, Rat, Rabbit, Cow and Monkey;

Additional Eos% measurement for dog and cat.

- 13 pre-defined animal species + 3 programmable animals on request
- Fully automated, compact, flexible and low cost
- Throughput: 25 samples per hour
- Automatic sample probe cleaning
- Huge data storage of 10, 000 results with histograms

Multiple Animal Species

- 13 pre-defined programs(dog, cat, horse, mouse, rat, rabbit, pig, cow, buffalo, camel, sheep, monkey and goat) + 3 programmable animals on request

Convenient and Safe To Use

- Fully automatic
- Integrated self-cleaning system minimizes maintenance
- Cyanide free reagents avoid environmental risks

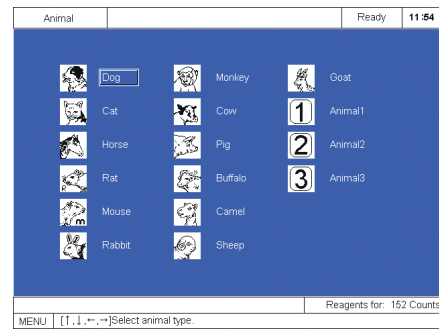

Superior Configuration

- Compact size requires small bench space
- Large color LCD display features intuitive communication
- Built-in thermal printer allows auto printing after every test

High Reliability and Accuracy

- Independent counting system for each species to ensure high accuracy
- Fully integrated calibration and quality control programs

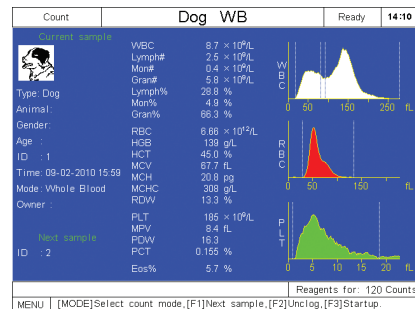

Operation Procedures

Step 1 Our Integrated list makes species selection easy

Step 2 Fully automatic aspiration and dilution procedures

Step 3 Results in less than three minutes; All parameters and histograms are visualized and printed

Step 4 Programmable multi-format printout
